- quote:** "We need to internalize this idea of excellence. Not many folks spend a lot of time trying to be excellent."

If you could go anywhere in the world, where would you go and why?

Dubai because of the new buildings and cities that are being built there. It would be great to see architecture that looks as if it would be built in the year 2050. I want to experience being surrounded in a city with the most amazing architecture in the world.

If you could be on the cover of any magazine, which one would it be and why would you be on the cover?

TIME magazine for Man of the Year. My accomplishments would be inventing the most basic but unique product that has yet to be created which could affect everyone in the world (I rather not discuss the invention though). Along with being the world's best known philanthropist to the poor while being a successful entrepreneur which would make the year's best 'renaissance man", which is the Morehouse College theme for students that attend.
