quote: "You must have been warned against letting the golden hours slip by; but some of them are golden only because we let them slip by."

If you could go anywhere in the world, where would you go and why?

Spain because of its rich Mediterranean culture and its far-reaching influence, especially in Castilian-speaking Latin and Central America.

If you could be on the cover of any magazine, which one would it be and why would you be on the cover?

TIME magazine for writing an influential book for young people that sheds light into the lives and minds of people searching and struggling to find their place in society.
