If you could go anywhere in the world, where would you go and why?

I would go to Egypt because I am fascinated by all the history that originated there.

If you could be on the cover of any magazine, which one would it be and why would you be on the cover?

I would be on the cover of Time magazine for excellence in business and the community. Because Time is more than a business magazine, it would mean that not only am I an elite business professional, but also I have positively influenced many lives.
