### If you could go anywhere in the world, where would you go and why?

Japan just to be able to see the technological advances they've made and to be able to experience a completely different culture, one that is often seen as the exact opposite of ours.

### If you could be on the cover of any magazine, which one would it be and why would you be on the cover?

GQ magazine because this is a magazine I read often and it reflects the way I feel about fashion, art, music and many other themes found in our society today.
