If you could go anywhere in the world, where would you go and why?

Guyana, my father's native land. I have a second hand account of the customs and culture but I would like to experience it for myself.

If you could be on the cover of any magazine, which one would it be and why would you be on the cover?

TIME magazine because it usually features influential people of this era. My true passion is impacting people for the greater good and inspiring others to reach higher peaks.
